

# Stigg's Brewing Company

**Stiggs Brewery & Kitchen** is Boyne City's original microbrewery. Built in 1899 by the White Timber Logging Co. the building initially served as the mill's office on the north side of the Boyne River. After a fire destroyed the lumber yard & mill in 1916, it was moved to its current location in downtown Boyne City. Brick was added to its exterior and then became home to the Boyne City, Gaylord & Alpena Railroad Headquarters for half a century. Stiggs opened its doors in 2017 and we now carry on this rich History & Hops every day! - Cheers
